## REVIEW 1

### ACKNOWLEDGEMENT

Our group would like to express our sincere appreciation to our instructor and all individuals who supported us throughout the Cinebook eProject development process. We are deeply grateful to our lecturer for valuable guidance and encouragement that helped us overcome technical challenges.

We would also like to thank all team members for their dedication, teamwork, and continuous effort in completing this project. The experience gained from this project has significantly enhanced our practical knowledge in web application development.

### INTRODUCTION

Cinebook – Smart Movie Booking, Seamless Experience!

Cinebook is a web-based online movie ticket booking system designed to simplify the traditional cinema booking process. The platform allows customers to search for movies, check showtimes, select seats, and book tickets anytime and anywhere.

The system serves two main user groups:

<b>Prepared by:</b> All members	<b>Approved by:</b> Lê Mộng Thuý
<b>Project Group No:</b> 1	<b>Version:</b> 1.0

<b>Design Plan:</b> Cinebook	<b>Document Name:</b> Review 1+2
<b>Effective Date:</b> 10/1/2026	<b>Version:</b> 1.0

- **Users:** movie-goers who book tickets online.
- **Admins:** system administrators who manage movies, cinemas, schedules, pricing, and reports.

## PROBLEM DEFINITION

### From the User's Point of View

- Long waiting time at cinema counters.
- Lack of real-time seat availability.
- Difficulty accessing movie schedules.
- No centralized booking history.

### From the Admin's Point of View

- Manual seat management leads to errors.
- Difficult to manage multiple theaters and showtimes.
- No automated revenue reporting.
- No centralized platform to manage reviews and bookings.

## CUSTOMER'S REQUIREMENTS SPECIFICATIONS (CRS)

**CLIENT: CINEBOOK CINEMA GROUP**

### Business Objective

<b>Project Group No:</b> 1	<b>Version:</b> 1.0

<b>Design Plan:</b> Cinebook	<b>Document Name:</b> Review 1+2
<b>Effective Date:</b> 10/1/2026	<b>Version:</b> 1.0

To build a fully functional online movie booking system that improves customer experience, automates ticket sales, and helps cinemas manage operations effectively.

## **INPUT TO THE SYSTEM**

### **From Admin / Staff:**

- Movie information (title, description, duration, genre, language, trailer link, poster).
- Cinema and theater information (cinema name, location, number of rooms).
- Showtime data (movie, theater, date, time, ticket price).
- Seat configuration for each theater.
- User, staff, and admin account information.

### **From Users:**

- Registration and login information (name, email, password).
- Movie selection.
- Showtime selection.
- Seat selection.
- Booking confirmation information (dummy payment).

## OUTPUT FROM THE SYSTEM

### **Admin / Staff Screens:**

- Movie List Screen: displays movie list, search and filter results.
- Cinema & Theater Management Screen: displays cinema and theater information.
- Showtime Management Screen: displays showtime schedules and ticket prices.
- Booking Management Screen: displays booking list and booking details.
- Revenue Report Screen: displays revenue statistics and reports.
- User & Staff Management Screen: displays account information.

### **User Screens:**

- Movie Listing Screen: displays available movies and search results.
- Movie Detail Screen: displays movie details and showtimes.
- Showtime Screen: displays schedules and seat availability.
- Ticket Booking Screen: displays seat layout and total price.
- Checkout Screen: displays booking confirmation.
- E-Ticket Screen: displays booking ID and ticket details.
- Booking History Screen: displays previous bookings.

<b>Project Group No:</b> 1	<b>Version:</b> 1.0

<b>Design Plan:</b> Cinebook	<b>Document Name:</b> Review 1+2
<b>Effective Date:</b> 10/1/2026	<b>Version:</b> 1.0

There are 3 types of accounts:

- Admin: Full CRUD, manage staff, reports
- Staff: View, add, update only
- Inspector: View only

## ORDERING MOVIE TICKETS

- When a user selects a movie, the chosen showtime will be displayed for booking.
- Users select seats from the seat layout and add them to the booking cart.
- Users can book multiple seats in a single transaction.
- Users complete the booking by clicking the “Checkout” button and filling in the required information.
- After successful checkout, the system generates a **Booking ID** and **E-ticket** for the user.

## DATABASE

- Information about users, movies, cinemas, theaters, showtimes, seats, bookings, and reviews will be stored in the database.
- Each booking transaction is recorded to prevent seat duplication.
- Booking history and E-ticket information are saved and can be accessed later by users and administrators.
- Data submitted from the **Review** and **Contact** features will also be stored in the database for quality management.

## SCOPE OF WORK

<b>Prepared by:</b> All members	<b>Approved by:</b> Lê Mộng Thuý
<b>Project Group No:</b> 1	<b>Version:</b> 1.0

<b>Design Plan:</b> Cinebook	<b>Document Name:</b> Review 1+2
<b>Effective Date:</b> 10/1/2026	<b>Version:</b> 1.0

The scope of work for the Cinebook – Online Movie Ticket Booking System defines the functional and technical boundaries of the project. The system is designed as a web-based application that supports online movie booking, seat selection, and cinema management, serving both customers and administrators.

## 1. Functional Scope

### 1.1 User Functions

- The system allows registered users to:
- Register and log in using personal credentials
- Browse and search for available movies
- View detailed movie information, including descriptions, trailers, showtimes, and ratings.
- Select showtimes and view real-time seat availability.
- Choose one or multiple seats per booking transaction.
- Confirm bookings through a dummy payment process.
- Receive booking confirmation and e-ticket information.
- View booking history and booking details.
- Submit movie reviews after completing a confirmed booking.

### 1.2 Admin and Staff Functions

The system provides management features for administrators and staff, including:

- User, staff, and role management.

<b>Prepared by:</b> All members	<b>Approved by:</b> Lê Mộng Thuý
<b>Project Group No:</b> 1	<b>Version:</b> 1.0

<b>Design Plan:</b> Cinebook	<b>Document Name:</b> Review 1+2
<b>Effective Date:</b> 10/1/2026	<b>Version:</b> 1.0

- Movie management (add, update, delete movie information).
- Genre management and assignment of multiple genres to movies.
- Screen type, room, and seat configuration management.
- Showtime scheduling and pricing configuration.
- Monitoring seat availability and booking status.
- Booking management and booking status updates.
- Viewing and managing movie reviews.
- Generating basic reports for bookings and revenue.

## 2. Database Scope

The database is designed to ensure data integrity, scalability, and real-time booking accuracy. It includes but is not limited to the following data domains:

- User and account information.
- Movie details, genres, and reviews.
- Cinema rooms, screen types, seats, and seat categories.
- Showtime schedules and dynamic pricing.
- Booking transactions and booked seats.
- Real-time seat status for each showtime.

The database design follows normalization principles to reduce data redundancy and support efficient querying.

## 3. Technical Scope

- The system is developed using PHP (Laravel framework) for backend processing.

<b>Prepared by:</b> All members	<b>Approved by:</b> Lê Mộng Thuý
<b>Project Group No:</b> 1	<b>Version:</b> 1.0

<b>Design Plan:</b> Cinebook	<b>Document Name:</b> Review 1+2
<b>Effective Date:</b> 10/1/2026	<b>Version:</b> 1.0

- MySQL is used as the relational database management system.
- The frontend is implemented using HTML, CSS, JavaScript, and React for interactive user interfaces. The system operates on a client-server architecture and is accessible through modern web browsers.

#### 4. Limitations & Exclusions

- Online payment integration is limited to a dummy payment process for demonstration purposes.
- The system does not include real banking or third-party payment gateway integration.
- Advanced analytics, AI-based recommendations, and mobile application development are outside the scope of this project.
- The system is intended for academic and learning purposes only.

## CONFIRM BOOKING PAGE

The screenshot shows the 'Confirm Booking' page of the TCA Cine website. At the top, there's a navigation bar with links for 'HomePage', 'Now Showing', 'Upcoming Movies', 'Reviews', 'Hello, Admin!', 'Admin Panel', and 'Logout'. Below the navigation is a red banner with the text 'Expiration Time' and '09:55'. A note below the banner states: 'Booking will be automatically canceled if not paid within this time'. The main content area is divided into sections: 'Booking Details' (Movie: Avengers: Endgame, Showday: January 10, 2025, Showtime: 2026-01-17 13:00:00, Room: N/A), 'Selected Seats' (Seat Code A7 and A8 both at 80,000 VND, Total Price 160,000 VND), and 'Payment method' (a dropdown menu labeled 'Select Payment Method'). At the bottom of the page, there's a footer with links for 'Home', 'Now Showing', 'Upcoming', and 'Reviews', along with contact info: address (123 Cinema Street, Ho Chi Minh City), phone (+84 123 456 789), and email (info@tacaine.com). The footer also includes copyright information: '© 2026 TCA Cine. All rights reserved.' and links for 'Privacy Policy' and 'Terms of Service'.
