REVIEW 1

ACKNOWLEDGEMENT

Our group would like to express our sincere appreciation to our instructor and all individuals who supported us throughout the Cinebook eProject development process. We are deeply grateful to our lecturer for valuable guidance and encouragement that helped us overcome technical challenges.

We would also like to thank all team members for their dedication, teamwork, and continuous effort in completing this project. The experience gained from this project has significantly enhanced our practical knowledge in web application development.

INTRODUCTION

Cinebook – Smart Movie Booking, Seamless Experience!

Cinebook is a web-based online movie ticket booking system designed to simplify the traditional cinema booking process. The platform allows customers to search for movies, check showtimes, select seats, and book tickets anytime and anywhere.

The system serves two main user groups:

Prepared by: All members	Approved by: Lê Mộng Thuý
Project Group No: 1	Version: 1.0

Design Plan: Cinebook	Document Name: Review 1+2
Effective Date: 10/1/2026	Version: 1.0

- **Users:** movie-goers who book tickets online.
- **Admins:** system administrators who manage movies, cinemas, schedules, pricing, and reports.

PROBLEM DEFINITION

From the User's Point of View

- Long waiting time at cinema counters.
- Lack of real-time seat availability.
- Difficulty accessing movie schedules.
- No centralized booking history.

From the Admin's Point of View

- Manual seat management leads to errors.
- Difficult to manage multiple theaters and showtimes.
- No automated revenue reporting.
- No centralized platform to manage reviews and bookings.

CUSTOMER'S REQUIREMENTS SPECIFICATIONS (CRS)

CLIENT: CINEBOOK CINEMA GROUP

Business Objective

Prepared by: All members	Approved by: Lê Mộng Thuý
Project Group No: 1	Version: 1.0

Design Plan: Cinebook	Document Name: Review 1+2
Effective Date: 10/1/2026	Version: 1.0

To build a fully functional online movie booking system that improves customer experience, automates ticket sales, and helps cinemas manage operations effectively.

INPUT TO THE SYSTEM

From Admin / Staff:

- Movie information (title, description, duration, genre, language, trailer link, poster).
- Cinema and theater information (cinema name, location, number of rooms).
- Showtime data (movie, theater, date, time, ticket price).
- Seat configuration for each theater.
- User, staff, and admin account information.

From Users:

- Registration and login information (name, email, password).
- Movie selection.
- Showtime selection.
- Seat selection.
- Booking confirmation information (dummy payment).

Prepared by: All members	Approved by: Lê Mộng Thuý
Project Group No: 1	Version: 1.0

Design Plan: Cinebook	Document Name: Review 1+2
Effective Date: 10/1/2026	Version: 1.0

OUTPUT FROM THE SYSTEM

Admin / Staff Screens:

- Movie List Screen: displays movie list, search and filter results.
- Cinema & Theater Management Screen: displays cinema and theater information.
- Showtime Management Screen: displays showtime schedules and ticket prices.
- Booking Management Screen: displays booking list and booking details.
- Revenue Report Screen: displays revenue statistics and reports.
- User & Staff Management Screen: displays account information.

User Screens:

- Movie Listing Screen: displays available movies and search results.
- Movie Detail Screen: displays movie details and showtimes.
- Showtime Screen: displays schedules and seat availability.
- Ticket Booking Screen: displays seat layout and total price.
- Checkout Screen: displays booking confirmation.
- E-Ticket Screen: displays booking ID and ticket details.
- Booking History Screen: displays previous bookings.

Prepared by: All members	Approved by: Lê Mộng Thuý
Project Group No: 1	Version: 1.0

Design Plan: Cinebook	Document Name: Review 1+2
Effective Date: 10/1/2026	Version: 1.0

There are 3 types of accounts:

- Admin: Full CRUD, manage staff, reports
- Staff: View, add, update only
- Inspector: View only

ORDERING MOVIE TICKETS

- When a user selects a movie, the chosen showtime will be displayed for booking.
- Users select seats from the seat layout and add them to the booking cart.
- Users can book multiple seats in a single transaction.
- Users complete the booking by clicking the “Checkout” button and filling in the required information.
- After successful checkout, the system generates a **Booking ID** and **E-ticket** for the user.

DATABASE

- Information about users, movies, cinemas, theaters, showtimes, seats, bookings, and reviews will be stored in the database.
- Each booking transaction is recorded to prevent seat duplication.
- Booking history and E-ticket information are saved and can be accessed later by users and administrators.
- Data submitted from the **Review** and **Contact** features will also be stored in the database for quality management.

SCOPE OF WORK

Prepared by: All members	Approved by: Lê Mộng Thuý
Project Group No: 1	Version: 1.0

Design Plan: Cinebook	Document Name: Review 1+2
Effective Date: 10/1/2026	Version: 1.0

The scope of work for the Cinebook – Online Movie Ticket Booking System defines the functional and technical boundaries of the project. The system is designed as a web-based application that supports online movie booking, seat selection, and cinema management, serving both customers and administrators.

1. Functional Scope

1.1 User Functions

- The system allows registered users to:
- Register and log in using personal credentials
- Browse and search for available movies
- View detailed movie information, including descriptions, trailers, showtimes, and ratings.
- Select showtimes and view real-time seat availability.
- Choose one or multiple seats per booking transaction.
- Confirm bookings through a dummy payment process.
- Receive booking confirmation and e-ticket information.
- View booking history and booking details.
- Submit movie reviews after completing a confirmed booking.

1.2 Admin and Staff Functions

The system provides management features for administrators and staff, including:

- User, staff, and role management.

Prepared by: All members	Approved by: Lê Mộng Thuý
Project Group No: 1	Version: 1.0

Design Plan: Cinebook	Document Name: Review 1+2
Effective Date: 10/1/2026	Version: 1.0

- Movie management (add, update, delete movie information).
- Genre management and assignment of multiple genres to movies.
- Screen type, room, and seat configuration management.
- Showtime scheduling and pricing configuration.
- Monitoring seat availability and booking status.
- Booking management and booking status updates.
- Viewing and managing movie reviews.
- Generating basic reports for bookings and revenue.

2. Database Scope

The database is designed to ensure data integrity, scalability, and real-time booking accuracy. It includes but is not limited to the following data domains:

- User and account information.
- Movie details, genres, and reviews.
- Cinema rooms, screen types, seats, and seat categories.
- Showtime schedules and dynamic pricing.
- Booking transactions and booked seats.
- Real-time seat status for each showtime.

The database design follows normalization principles to reduce data redundancy and support efficient querying.

3. Technical Scope

- The system is developed using PHP (Laravel framework) for backend processing.

Prepared by: All members	Approved by: Lê Mộng Thuý
Project Group No: 1	Version: 1.0

Design Plan: Cinebook	Document Name: Review 1+2
Effective Date: 10/1/2026	Version: 1.0

- MySQL is used as the relational database management system.
- The frontend is implemented using HTML, CSS, JavaScript, and React for interactive user interfaces. The system operates on a client-server architecture and is accessible through modern web browsers.

4. Limitations & Exclusions

- Online payment integration is limited to a dummy payment process for demonstration purposes.
- The system does not include real banking or third-party payment gateway integration.
- Advanced analytics, AI-based recommendations, and mobile application development are outside the scope of this project.
- The system is intended for academic and learning purposes only.

MOVIES MANAGEMENT

The screenshot shows the 'CineBook Admin' application. The left sidebar has a dark blue background with white icons and text for 'Dashboard', 'Movies' (selected), 'Rooms', 'Showtimes', 'Bookings', 'Users', 'View Website', and 'Logout'. The main area has a light gray background. At the top right, there's a user icon, 'Welcome, Admin', and a red 'admin' badge. Below that is a green button with a plus sign and the text 'Add New Movie'. The central part is titled 'Manage Movies' and contains a table with the following data:

ID	Poster	Title	Duration	Genre	Release Date	Status	Actions
26		Titanic James Cameron	195 mins	Drama, Romance	Dec 19, 1997	Ended	
27		Forrest Gump Robert Zemeckis	142 mins	Drama, Romance	Jul 06, 1994	Ended	
28		The Shawshank Redemption Frank Darabont	142 mins	Drama	Sep 23, 1994	Ended	
29		The Wailing Na Hong-jin	156 mins	Horror, Thriller, Crime	May 12, 2016	Ended	
30		Call Me by Your Name Luca Guadagnino	132 mins	Drama, Romance	Nov 24, 2017	Ended	
31		Belle	121 mins	Fantasy, Adventure, Animation	Jul 16, 2021	Ended

ROOMS MANAGEMENT

The screenshot shows the 'Manage Rooms' section of the CineBook Admin interface. On the left, a dark sidebar menu includes 'Dashboard', 'Movies', 'Rooms' (which is highlighted), 'Showtimes', 'Bookings', 'Users', 'View Website', and 'Logout'. The main content area is titled 'Manage Rooms' and shows 'Total: 4 rooms'. Four room cards are listed:

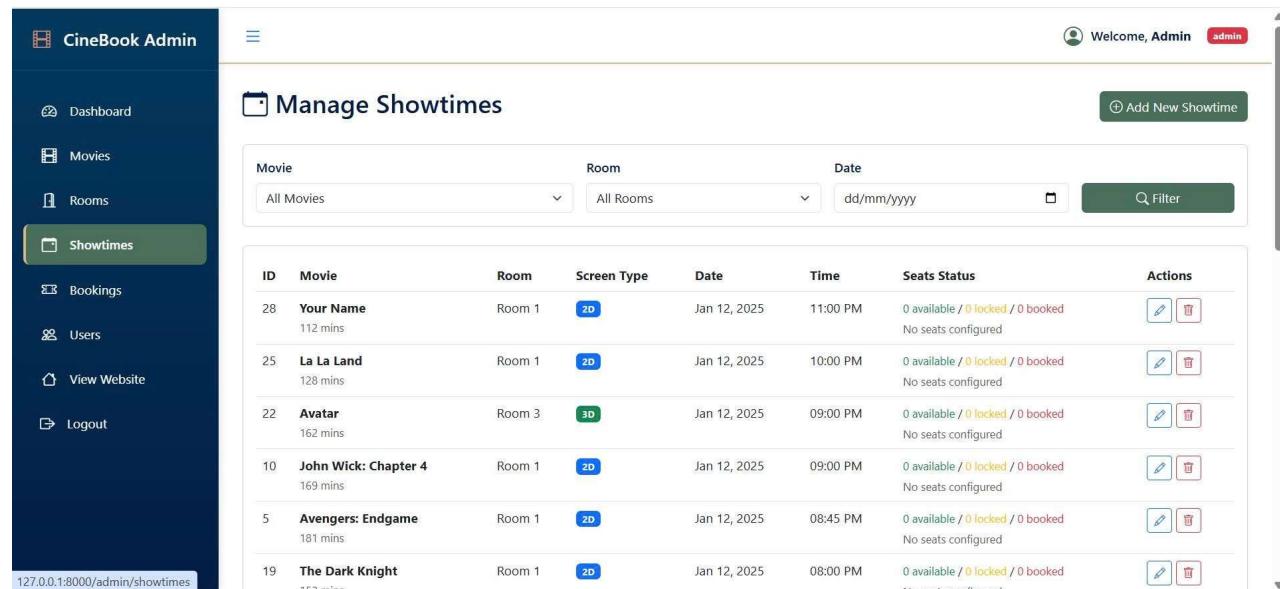

- Room 1:** Screen Type: 2D, Layout: 8 rows x 18 seats, Total Seats: 144. Buttons: Edit Seats, Refresh.
- Room 2:** Screen Type: 2D, Layout: 8 rows x 18 seats, Total Seats: 144. Buttons: Edit Seats, Refresh.
- Room 3:** Screen Type: 3D, Layout: 8 rows x 18 seats, Total Seats: 144. Buttons: Edit Seats, Refresh.
- Room 4:** Screen Type: IMAX 4D, Layout: 8 rows x 18 seats, Total Seats: 144. Buttons: Edit Seats, Refresh.

A green button labeled 'Add New Room' is located in the top right corner of the main content area.

The screenshot shows the CineBook Admin application. On the left is a dark sidebar with navigation links: Dashboard, Movies, Rooms, Showtimes, Bookings (which is highlighted in green), Users, View Website, and Logout. The main content area has a header "Manage Bookings". It displays four summary boxes: "Total Bookings: 10", "Confirmed: 5", "Pending: 3", and "Cancelled/Expired: 2". Below these are two input fields: "Total Revenue (Paid): 1,280,000đ" and "Today's Bookings: 10". A search bar at the top right includes filters for "Search", "Status", "Payment", and "Booking Date". The main table lists bookings with columns: Booking ID, User, Movie, Showtime, Seats, Total Price, Status, Payment, Booked On, and Actions. Two bookings are shown: #13 (User One, Avengers: Endgame, Jan 10, 2025, 10:00 AM, 240,000đ, Confirmed, Paid, Jan 17, 2026, 10:40 AM) and #14 (User Two, Avengers: Endgame, Jan 10, 2025, 10:00 AM, 160,000đ, Pending, Pending, Jan 17, 2026).

Booking ID	User	Movie	Showtime	Seats	Total Price	Status	Payment	Booked On	Actions
#13	User One user1@gmail.com	Avengers: Endgame Room 1	Jan 10, 2025 10:00 AM		240,000đ	Confirmed	Paid	Jan 17, 2026 10:40 AM

Synopsis

After the devastating events caused by Thanos, the universe is left in ruins. With half of all life erased, the remaining Avengers struggle to cope with loss, guilt, and failure. When a new opportunity emerges to reverse the catastrophe, the team reunites for one final mission. This emotional and action-packed conclusion delivers epic battles, heartfelt sacrifices, and a powerful farewell to beloved heroes, serving as the culmination of over a decade of storytelling in the Marvel Cinematic Universe.
